The Museum's award winning Ark Royal Aircraft Carrier flight deck offers a unique experience!

The area is ideally suited to buffets and cocktail receptions prior to moving into one of the other hospitality areas.

Tables can be positioned among the ten aircraft on the flight deck including two Blackburn Buccaneers, a Fairey Gannet, de Havilland Sea Vixen, McDonald Douglas Phantom and the first jet powered aircraft to land on an aircraft carrier – the de Havilland Vampire.

For added drama, a dramatic film sequence showing aircraft taking off and landing can be projected onto two enormous projection screens – however the volume of this audio visual programme would dominate any discussion among guests and is therefore not recommended.
